

BETTER SCHOOLS AGREEMENT FOR 2016

Dear Parents/Caregivers

The Australian Government *Better Schools Funding* (BSF) is aimed at providing additional funding in areas that improve educational achievement for our students.

As a recipient of this funding we, at O'Sullivan Beach School, believe that this funding is best used to improve literacy and numeracy outcomes for students.

Our strategy for this is to:

- Provide SSO support in junior classes to support students learning in numeracy and literacy.
- Provide SSO support to run a MiniLit intervention program.
- Use student data to inform future learning and provide individual student goals.
- Target professional learning to improve teacher capacity.

A description of the planning and monitoring associated with these strategies will be included in the 2016 School Annual Report.

Regards

Debbie Grzeczowski
