

Personal Digital Device Policy

Scope

This policy applies to all O'Sullivan Beach Primary School students, staff, visitors, volunteers and contractors whilst on site at school and/or attending school events off site (including camps and excursions).

A Personal Digital Device encompasses all digital devices including, but not limited to mobile phones, smart watches and tablets and applications capable of accessing and using the internet and/or communicating with other devices/people.

Rationale

The increased ownership of Personal Digital Devices (PDD's), require that school staff, students and parents take steps to ensure that these PDD's are used responsibly.

O'Sullivan Beach Primary School is committed to providing an environment that is safe and free from unnecessary distractions and harassment. The Personal Digital Device (PDD) Policy is designed to ensure that appropriate guidelines are set for the use of such devices and potential issues can be clearly identified and addressed. O'Sullivan Beach Primary School understands that parents give their children mobile phones and other digital devices as important communication tools. These devices are used to protect them from everyday risks involving personal security and safety whilst travelling alone to and from school.

Teaching and learning are our core business and for this reason, student PDD use should not disrupt classroom lessons, or be used during breaks such as lunch and recess time.

This policy applies while students are at school, or attending an authorised school activity such as an excursion, during school hours, and works alongside the OSBPS 'Acceptable Computer Network and Internet Use Policy'.
